

Access (LifeWay's ongoing Bible study resource for adults and older youth who have special learning needs) follows a 5-year study plan that utilizes a storytelling approach to studying the Bible. Each quarter, learners will follow the stories of Bible events or Bible people from the beginning to the end of the story.

The stories of the Old Testament are presented in chronological order so learners can better understand how the story of Israel unfolded. This will allow adults to gain a sense of Bible history and help them know why it was necessary for God to send Jesus as our Savior and Lord.

Stories from Acts are told in sequence so learners can see how the first believers obeyed Jesus' command to share the gospel message first in Jerusalem, then in Judea and Samaria, and then throughout the earth.

Each year from the Christmas season through the Easter season, learners will study Jesus' life. Years 1–4 focus on one Gospel at a time, highlighting stories unique to each Gospel account. Year 5 overviews stories from the life of Jesus found in all four gospel accounts.
